

Overview of RES-E legislation and achievements

NAGY-BEGE ZOLTÁN

Romanian Energy Regulatory Authority

Member of the Regulatory Board

Legislation

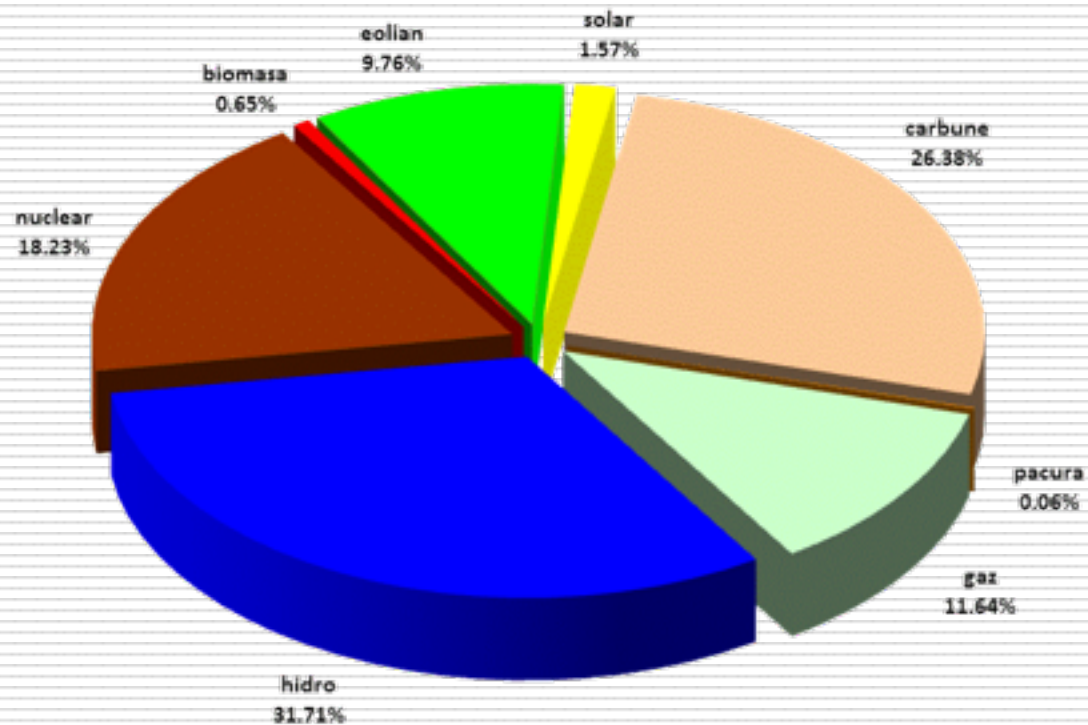

Changes of **Law 220/2008:**

- **Law 139/2010**
- **EGO 29/2010**
- **EGO 88/2011**
- **Law 134/2012**
- **EGO 79/2013**
- **EGO 57/2013**
- **Law 23/2014**
- **Law 122/2015**

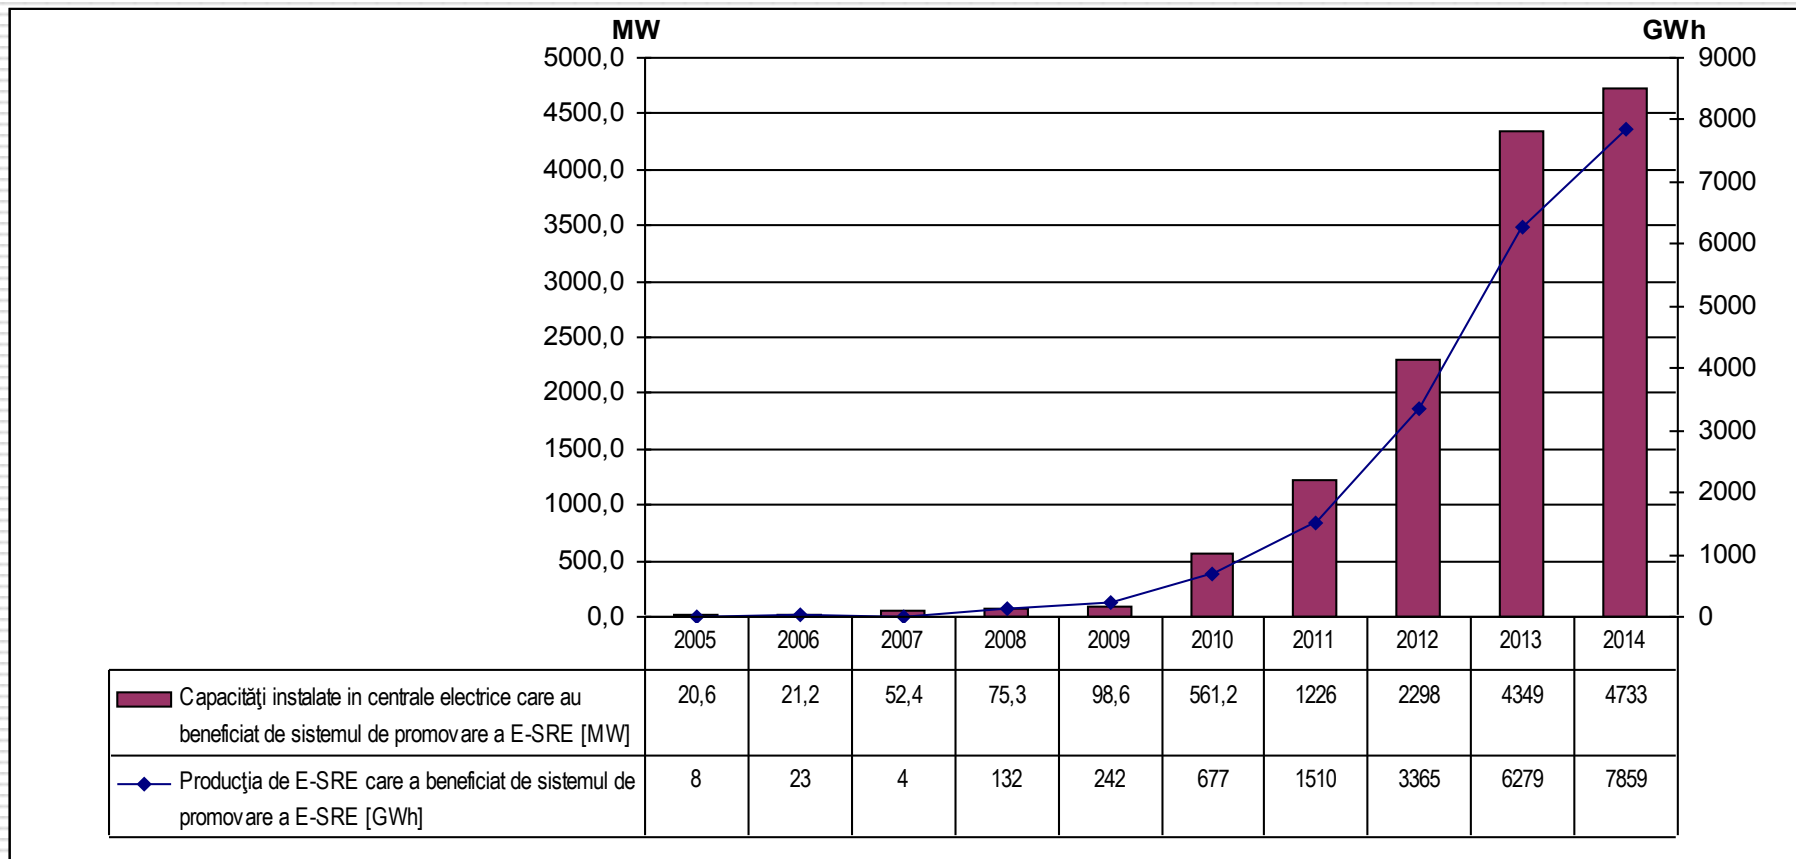

ROMANIA 2014 – Electricity production (59,65 TWh)

Structura pe tipuri de resurse a energiei electrice livrate in retele de producatori dispecerizabili si nedispecerizabili
- 2014-

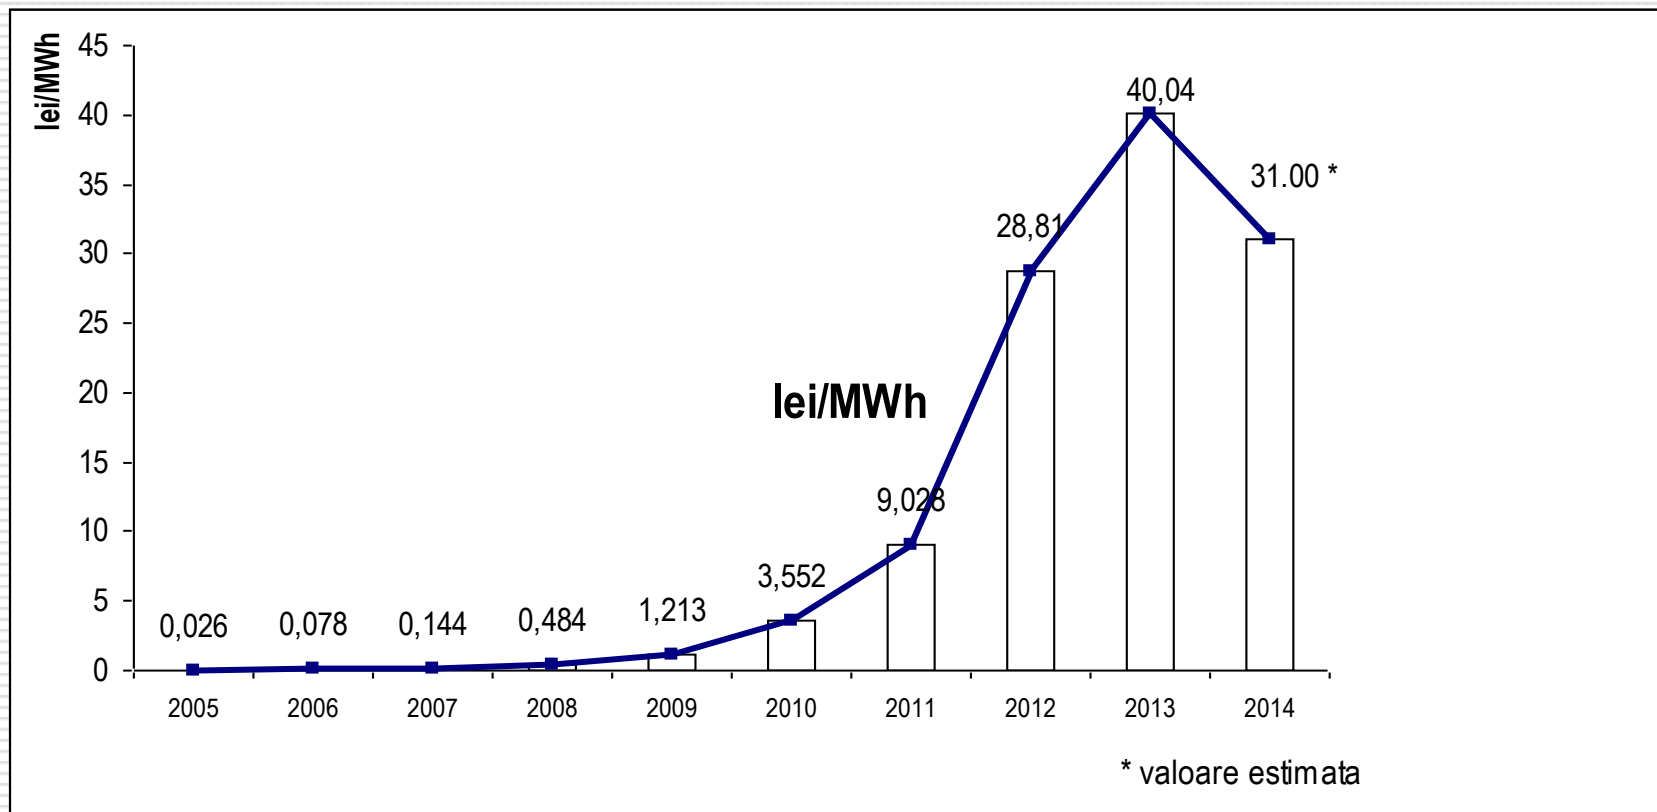

Bucharest – June 11th 2015

ROMANIA 2014 – Supported RES-E production

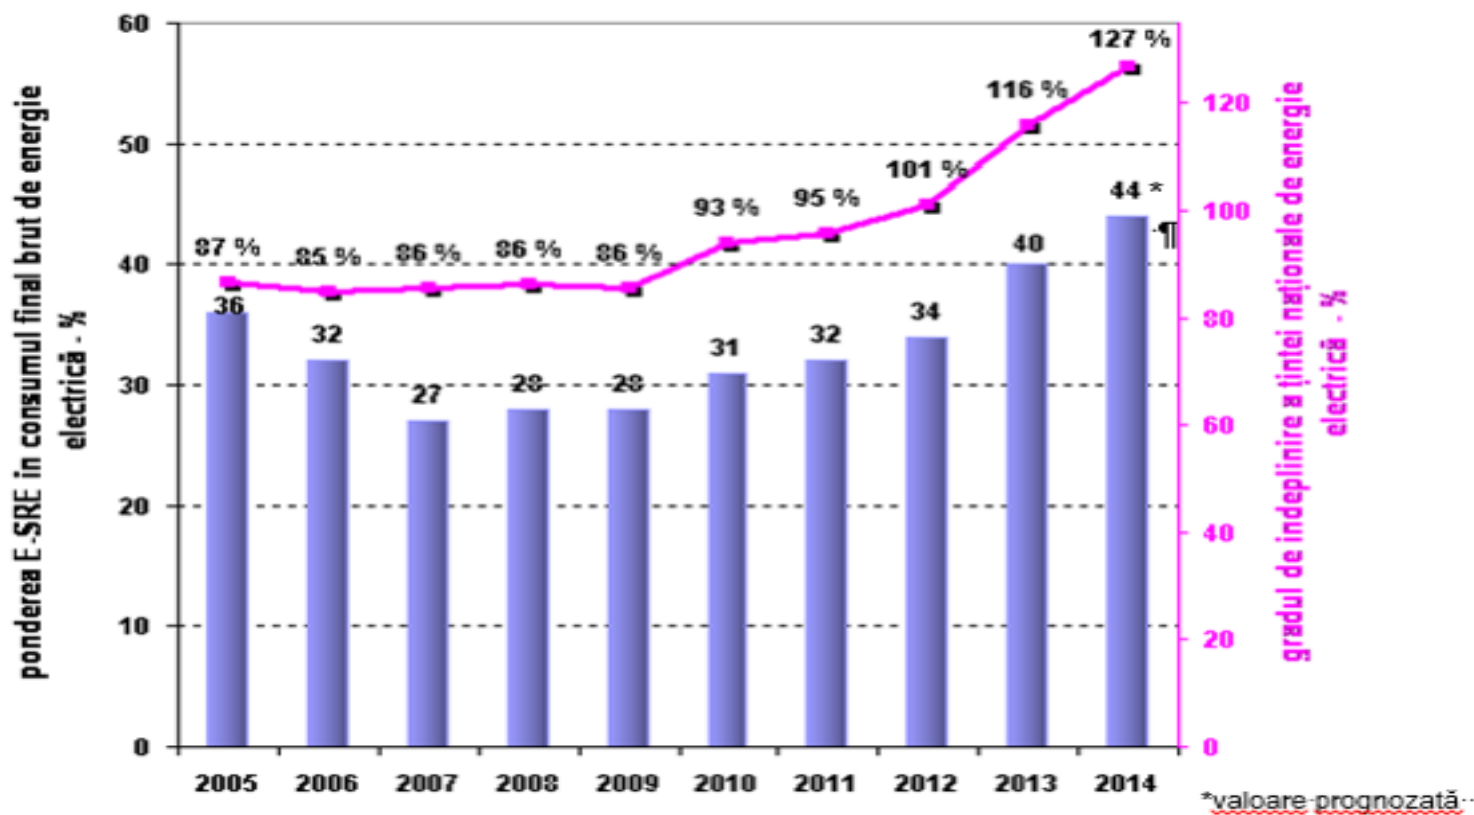

THE COSTS OF GC SUPPORT SCHEME (RON/MWh)

RES-E TARGETS

RES-E production capacities

(MW)	RES-E production capacities					
	2010	2011	2012	2013	2014	iun. 2015
Wind		670	1.696	2.594	2.174	2.100
Hydro		438	491	531	311	324
Biomass		25	43	66	100	103
PV		1	98	1.158	1.230	1.263
	520	1.134	2.328	4.349	3.815	3.790

RES-E production in figures

2008-2014: investments in renewable energy production capacities

7 billion Eur

2014: electricity produced by the supported RES-E power plants

7,85 TWh (13,7%)

2014: GC included in the GC quota and traded

10,2 million GC

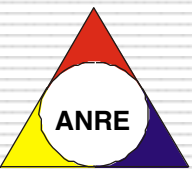

2014: total value of the subsidies

299,6 million Eur

Law no. 122/2015

- **New accreditation rules for power plants > 125 MW**
- **Opening the GC support scheme for imported RES-E**
- **Feed-in tariff for power plants < 500 kW**
- **GCs for electricity produced from imported biomass**
- **Quarterly GC acquisition for suppliers**
- **Bilateral contracts for power plants < 3 MW**
